REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
HMC Investments, Inc.

We have audited the accompanying statement of financial condition of HMC Investments, Inc. as of December 31, 2015, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements. HMC Investments, Inc.'s management is responsible for the statement of financial condition. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of HMC Investments, Inc. as of December 31, 2015 in accordance with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of the statement of financial condition.

HMC Investments, Inc.
Notes to Statement of Financial Condition
December 31, 2015

1. General

HMC Investments, Inc. (the Corporation), a wholly owned subsidiary of Harbert Management Corporation (HMC) (parent), was incorporated on February 1, 1996, for the purpose of being a registered broker-dealer with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority (FINRA). The Corporation was established primarily to assist HMC and its affiliates in the marketing of HMC sponsored unregistered investment funds under Regulation D and serving as an "in-house" placement agent in the United States for interests in investment funds. The Corporation operates under an exemption of SEC Rule 15c3-3 and does not hold customer monies or securities.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Corporation:

Basis of Presentation

The accompanying statement of financial condition has been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) and are presented under the accrual basis of accounting.

Cash

The Corporation considers cash and all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. At December 31, 2015, the Corporation does not hold any such debt instruments.

Restricted Cash

Restricted cash represents funds held on deposit with FINRA. The funds will be used for future costs associated with maintaining the Corporation's FINRA license.

Fixed Assets

Fixed assets are recorded at cost and are depreciated using the straight-line method. Computers and equipment and furniture and fixtures are depreciated over their estimated useful lives, which range from 3 to 7 years. Leasehold improvements are amortized over their estimated useful life, or the remaining lease term, whichever is shorter. Maintenance and repairs are charged to expense when incurred; betterments and improvements that materially prolong the lives of the assets are capitalized. The cost of assets sold or retired and the related accumulated depreciation are removed from the respective accounts, and the gain or loss on such disposition is recognized currently.

Accounting for Income Taxes

The Corporation is included in the consolidated federal and certain state income tax returns of its parent, HMC. The consolidated income taxes are allocated to the Corporation under a Tax Allocation Agreement based on its contribution to the consolidated tax provision or benefit. If the Corporation generates a current net operating loss, a credit is allowed for the portion of the loss which is utilized to offset taxable income of other members of the consolidated group. Current federal and states of Alabama, California, and New York tax provisions and benefits, if any, are settled through the intercompany account with HMC. Net operating loss carry forwards represent tax losses generated which have not been used to offset taxable income of the Corporation or other members of the consolidated group.

HMC Investments, Inc.
Notes to Statement of Financial Condition
December 31, 2015

The Corporation accounts for income taxes in accordance with Accounting Standards Codification (ASC) 740-10-05, *Accounting for Income Taxes*. Under ASC 740-10-05, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year end. The amounts recognized are based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Corporation evaluates its tax positions and establishes assets and liabilities in accordance with the applicable accounting guidance on uncertainty in income taxes. The Corporation reviews these tax uncertainties in light of changing facts and circumstances and adjusts them accordingly. The Corporation does not believe it has any significant uncertain tax positions as of December 31, 2015.

Compensated Absences

The Corporation's employees accumulate vacation and sick leave at varying rates depending upon their years of continuous service and payroll classification, subject to maximum limitations. Upon termination of employment, employees are paid all unused accrued vacation. Included in accrued liabilities on the statement of financial condition is an accrual of approximately \$39,000 as of December 31, 2015, for accrued vacation pay. There is no such accrual recognized for sick leave benefits because there is no terminal cash benefit available to employees for accumulated sick leave.

Use of Estimates

The preparation of the statement of financial condition in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

Concentration of Credit Risk

The Corporation maintains cash accounts with one large financial institution. At times, such amounts may exceed the Federal Deposit Insurance Corporation insured limit of \$250,000. The Corporation believes that no significant concentration of credit risk exists with respect to its cash accounts.

The Corporation earns revenue for services provided under a placement agent agreement. During 2015, the Corporation derived 100% of its revenue from this agreement.

Subsequent Events

Subsequent events have been evaluated through February 22, 2016, which represents the date that the statement of financial condition was issued.

3. Net Capital Requirements

The Corporation is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2015, the Corporation had net capital of \$852,335, which was \$773,430 in excess of the minimum requirement of \$78,905.

4. Placement Agent and Shared Services Agreements

Effective May 30, 2008 and superseding previous agreements, the Corporation entered into an agreement with Harbert Fund Advisors, Inc. (HFA), an affiliated entity, and various HMC sponsored unregistered investment funds under Regulation D, all of which are also affiliated entities, to act as

HMC Investments, Inc.
Notes to Statement of Financial Condition
December 31, 2015

the placement agent for the private placement of interests of the investment funds to qualified investors. In consideration for the services provided by the Corporation, HFA pays the Corporation an annual fee as outlined in the agreement. The agreement will continue in effect for successive one year periods unless the Corporation or HFA terminate the agreement upon providing a 45 day written notice to the other parties (ie. investment funds) to the agreement.

Effective June 1, 2008, the Corporation entered into a shared services agreement with HMC. This agreement, amended on August 4, 2008, and June 1, 2009, allows for HMC to provide certain administrative services to the Corporation and the Corporation will reimburse HMC for the estimated value of these services.

5. Income Taxes

Deferred tax assets and liabilities relate to differences between the tax bases and financial reporting amounts of property and equipment, and accrued liabilities.

The Corporation reduces its deferred income tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that all or a portion of a deferred tax asset will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences are deductible. The Corporation has established a full valuation allowance against federal, state and local deferred tax assets due to uncertainty of utilization in the future when the temporary differences are deductible.

The components of deferred income taxes recognized as of December 31, 2015 are as follows:

Deferred tax assets	
Accrued vacation	\$ 14,212
Salaries and wages	372,538
Straight line rent	<u>1,487</u>
Total deferred tax assets	388,237
Valuation allowance	(374,011)
Deferred tax liabilities	
Basis differences of property and equipment	5,987
Straight line lease incentive	<u>8,239</u>
Total deferred tax liabilities	<u>14,226</u>
Net deferred tax assets	<u>\$ 0</u>

HMC Investments, Inc.
Notes to Statement of Financial Condition
December 31, 2015

6. Fixed Assets

Fixed assets consist of the following as of December 31, 2015:

Computers and equipment	\$	129,994
Furniture and fixtures		74,739
Leasehold improvements		104,528
		<u>309,261</u>
Less: Accumulated depreciation and amortization		<u>(196,213)</u>
	\$	<u>113,048</u>

7. Related Party Transactions

The Corporation has a facilities agreement with HMC and incurs office rent expense related to various operating leases under this agreement. HMC is obligated under the terms of the various leases until 2024. The Corporation's portion of the rent expense is at the discretion of HMC.

HMC leases certain property and office space under an operating lease agreement that expires in 2019. This office space is primarily used by the Corporation's employees, and therefore, the Corporation incurs the related office rent expense.

The Corporation allocates expenses to HFA for HFA's use of certain office furniture and equipment owned by the Corporation.

The Corporation is allocated expenses by HMC for its use of office furniture and equipment owned by HMC.

See Note 4 for disclosures regarding other agreements with affiliated entities.
